To whom it may concern:

I've been using DigiClips for media monitoring services on a regular basis for the past few years. Prior to that, I used a competitor for the same service. The reasons I switched are simple:

DigiClips is incredibly responsive and easy to work with. They deliver high quality at a fair price. You can't ask for more than that. If I need a report customized or a clip in several formats right away, they can always accommodate my needs quickly and efficiently. Did I mention at a fair price?

As a small PR firm, I often work with clients that have challenging budgets. DigiClips understands my business. They are flexible enough to help me deliver impressive results with great value. They treat me like a partner, not a customer. That's why I am happy to recommend them to my colleagues.

Best regards,
